Un peu plus d'informations sur GIT Yes !!

What part(s) of the course did you like most?

Tout ! L'ensemble des sujets couverts par cette formation a été très bien abordé et à permis de répondre à beaucoup de questions. Vue d'ensemble du "framework" driver The interrupt management. Les sous systèmes driver, les TP, git, le device model, pratiquement tout était instructif. - Formateur parfait - très bonne connaissance de son sujet - Beaucoup d'informations reçues

What part(s) of the course did you like least?

Rien ! I don't have an opinion. - La forme du support de formation n'est pas satisfaisante: limite illisible (heureusement que l'on peut obtenir sur le site de free-electrons: une solution pas plus chère serait d'avoir le support de formation sur CD ou sur clé USB, la clé USB ayant un avantage certain pour mettre des informations - Certaines parties du support de cours mériteraient d'avoir un exemple (très simple) d'utilisation - Le LAB "Serial controller device driver programming" était, pour moi, le top de la formation: il est dommage que personne n'ait pas pu le finir. Globalement, étant d ...
