What part(s) of the course did you like most?

Labs,

the fact that we built the entire chain: bootloader, kernel, rootfs

The practical assignments and that they all worked together

The Training book and the Lab book are well structured and complete. Good that these are separate books. Good mix between theory and practical lab. Very skilled teacher on the topic.

What part(s) of the course did you like least?

parts about free software and licenses are rather abstract.
