Please tell us why you need or don't need paper printed materials

Très chouette d'avoir les slides imprimés afin de pouvoir les annoter.

Only used PDF version. Easier to copy-paste anyway.

printing copies enable to: -go back to previous slides easily during presentation -be able to read a paper instead of looking to the projected sides (convenient depending of the room configuration) -more convenient to have only the terminal on laptop and printed copies on the side

Comments and suggestions

I knew when I decided to join that I a significant part of training would be more of a reminder. It was however very useful to fill few gaps and get a better view on the global picture.
