Please tell us why you need or don't need paper printed materials

it's more comfortable for me than reading on the screen

The Lab Materials are important. Whereas the ppt is ok to have it digitally only

Maybe one day provide a similar class for Beginners?

It would be very helpful to afterwards point out the crucial parts that are expected to be covered by the labs; otherwise it can happen that you make it but miss things or do it the wrong way. Besides it was sometimes not clear to me, where some variables are expected to be used: in the end everything is a configuration file or a recipe, special meaning is by convention (images, distros, ...)
