What part(s) of the course did you like most?

3 responses

labs

The instructor is very good!

the live demo

What part(s) of the course did you like least?

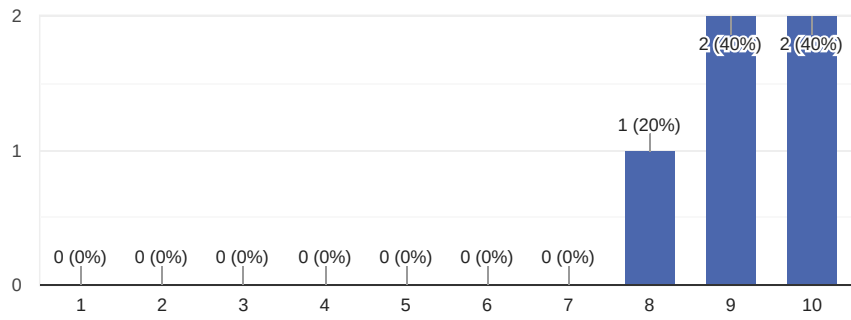

2 responses

Writing recipes - going further

not being able to run the labs myself in parallel. It was possible but I feel that I would have missed out too much trying to do this. I know that this would be better. But it also has its downside as every person may have different issues. And slow everything down. ST did a nice live demo where they sent out a VM image beforehand and maybe you could have the boards yourself.
