How was the duration of the course?

6 responses

Comments and suggestions

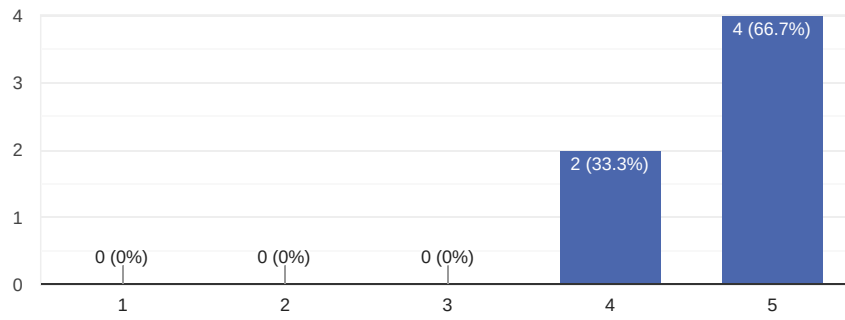

1 response

May be having more sessions but shorter might be better, since sometimes I was struggling to be fully concentrated after a few hours.

How useful were the training materials?

6 responses

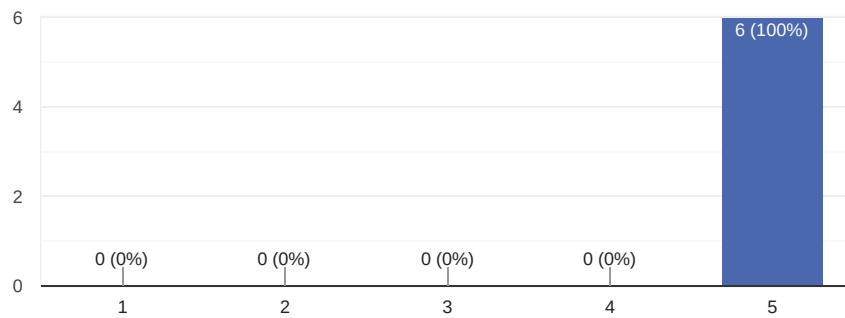

Comments and suggestions

1 response

Very nice to have all the materials under Creative Commons license.

How knowledgeable was the instructor?

6 responses

Comments and suggestions

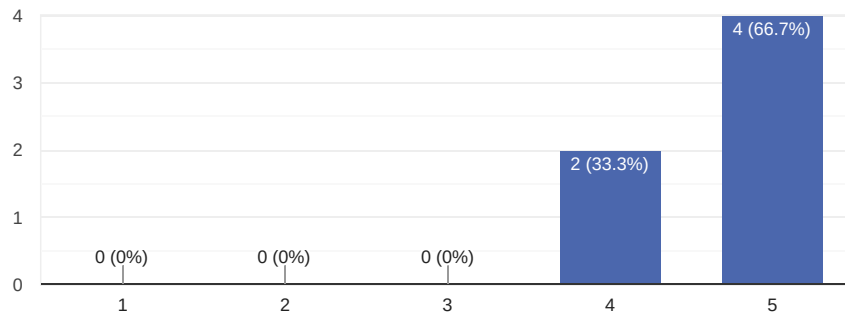

1 response

It was great to see that the instructor was both very knowledgeable and very good at presenting the material.

How much value did the instructor add to lecture materials?

6 responses

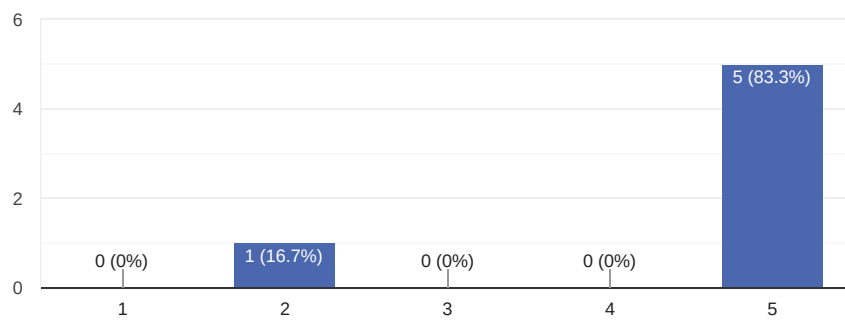

Suggestions and comments

0 responses

How useful were the practical demos?

6 responses

Comments and suggestions

2 responses

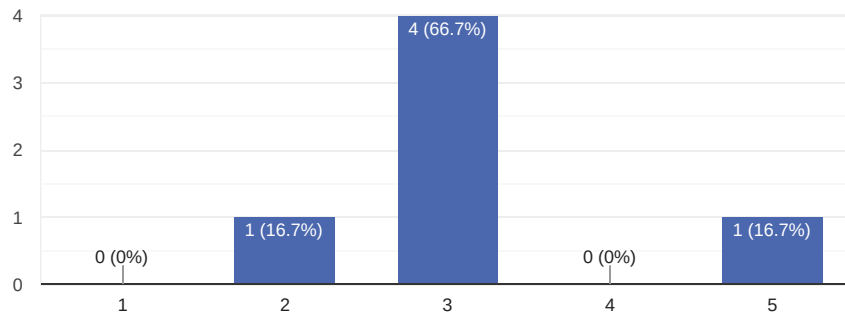

just watching is not the same as doing; perhaps more organization from our side was necessary to organize hw for everyone

On-site labs loud be more useful

Was enough time dedicated to practical demos?

6 responses

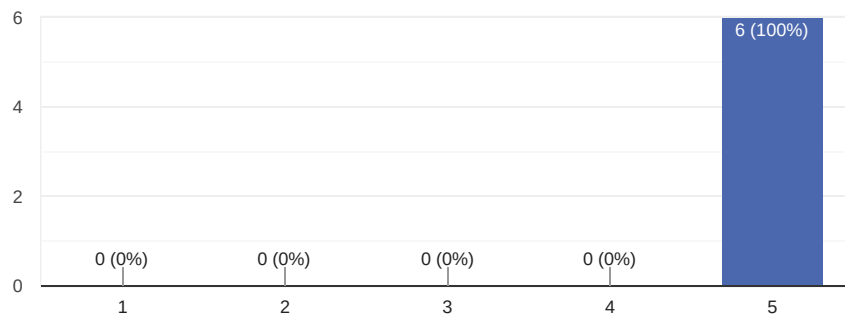

Comments and suggestions

How well was the course organized (program, registration, schedule...)?

6 responses

Comments and suggestions

2 responses

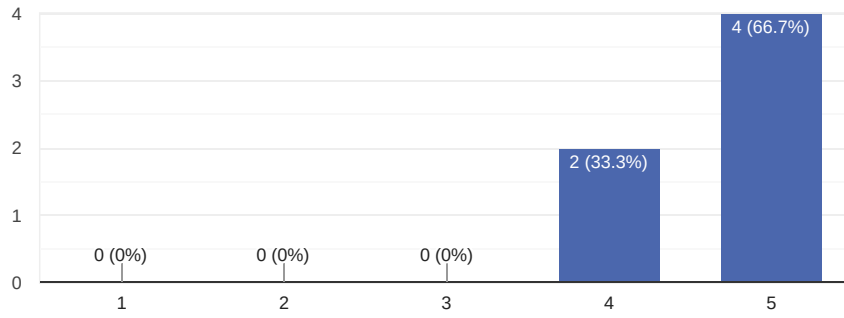

Perhaps more brakes loud be nice

I would suggest 2 10 minute breaks instead of one 15 min one, to stretch our legs.

How much did you learn?

How useful should this course be in your daily job?

6 responses

Comments and suggestions

1 response

I am not sure if I would work on Yocto projects, but if I do - the course defenetly helped.

What part(s) of the course did you like most?

4 responses

the Q-n-A with the instructor

Entire course was great

The practical demos.

The labs.

What part(s) of the course did you like least?

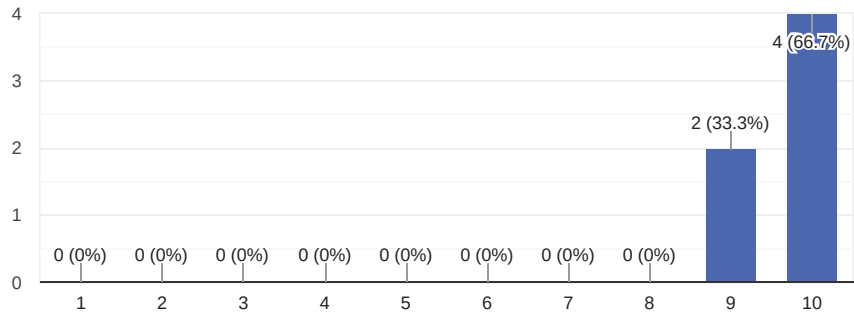

2 responses

waiting for building, but its inevitable

Not having enough time and hardwate for the participants to do all the laps by themselves.

Overall rating

6 responses

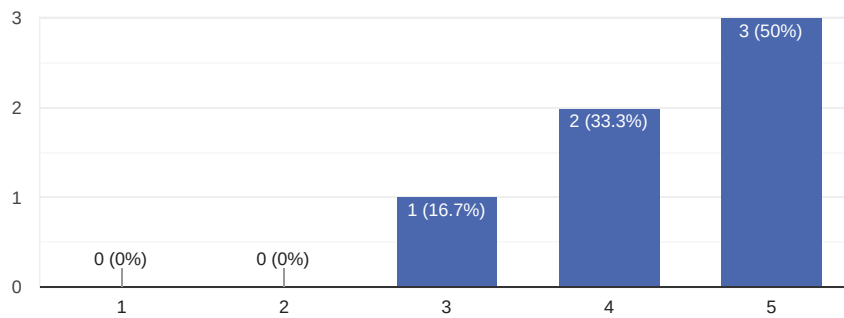

Comments and suggestions

1 response

I suspect asking people to write their questions in chat and answering them between topics may be helpful.

Further training needs?
