Comments and suggestions

1 response

Shorter labs and a way to start a lab from scratch (independtly from previous labs) would be wonderful.

## How would you rate the overall organization of the course?

6 responses

Comments and suggestions

1 response

The first day we spent an awful lot of time for the first build.

How would you rate the trainer?

Not bootlin's responsibility but a lot of time was wasted during the labs because of IT problems and caused a lot of frustration. Mostly because our company mandates the use of Windows machines, virtual Machines cause a lot of connection problems to the target.

What part(s) of the course did you like most?
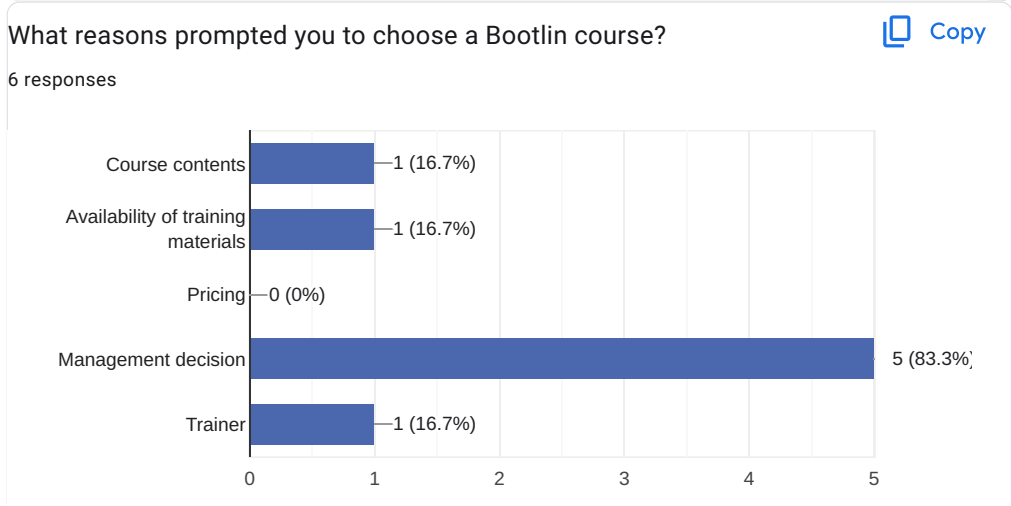

2 responses

The labs, even if the VM's were a huge problem.

devtool

What part(s) of the course did you like least?

2 responses

The building time on the first day.

SDK

Trainer clear in explaining, and knows the subject well. The only thing I see that could be improved is the time kinda lost due to build/compilation time during labs.

Further training needs?
