One small issue I ran into with the practical demos was that if I ran into an issue and fell behind on the demo, I would also be behind on the following demo. I was able to get things figured out between sessions.

a little bit confusing for a newby with Yocto

## How would you rate the overall organization of the course?

6 responses

Marcos did a great job - he kept the group engaged and was willing to experiment with questions from the group, which led to a greater understanding of the material.

Joao was really great, he was a very engaging presenter and was easy to follow along with.

How did the course meet your learning objectives?

What part(s) of the course did you like most?

4 responses

demo on writing the ninvaders recipe because it demonstrated the power and flexibility of yocto the most.

The labs

labs

The practical demos were very useful and the materials are great for referencing.

What part(s) of the course did you like least?

3 responses

Runtime package management

N/A, it was a great course.

no

What reasons prompted you to choose a Bootlin course?

Great course. Wish would have taken earlier.

Further training needs?

2 responses

Kernel driver development, but that is already scheduled

Linux kernel driver development
