Last 2 days it became very hard to follow the lab code. I don't have the devices used in the lab but maybe more hands-on stuff could be included like small quizzes on the code maybe.

It's a very packed course, but scattered for two weeks. I would have rather have 1 week with full days instead of half days.

How would you rate the trainer?

What part(s) of the course did you like most?

1 response

Coding parts are great. Theoretical is a bit too long but necessary.

What part(s) of the course did you like least?

Thanks to Maxime training was very easy to follow and easy to ask questions without hesitating. He makes every participant at home since he is so easy to get along with.

Further training needs?
