Maybe split the course in two half weeks, one could have more time to spend on labs...

How useful were the lectures?

It would have been nice to have more problem-solving cases, showing realworld scenarios. However it is hard to simulate and set up

How useful were the practical demos?

Comments and suggestions

2 responses

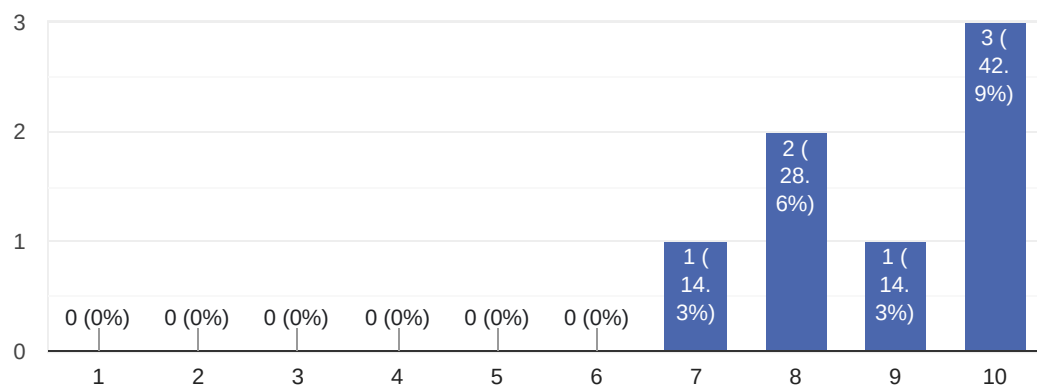

Everything was demonstrated nicely and was easy to follow

I would have liked some more time between the lectures.

How would you rate the overall organization of the course?

Everything was sharp and punctual

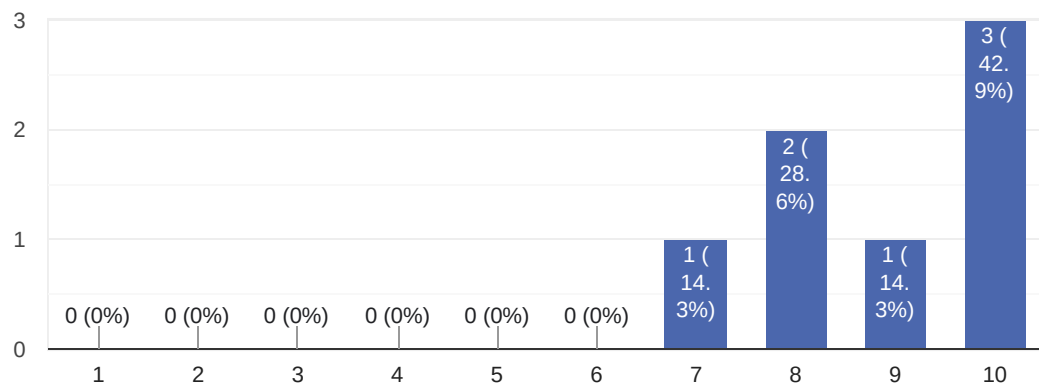

I think it was perfect to split it into half days for remote sessions.

How would you rate the trainer?

Antonin is really helpful, responsive and well prepared

course was very good, could have been a bit more active in matrix channel.

How did the course meet your learning objectives?

Maybe it would be nice to have an additional extended lab instructions where every step is written that we could refer to when getting stuck somewhere.

What part(s) of the course did you like most?

6 responses

Practical labs; spontaneous demonstrations of the current topics and mentioned tools in the training environment.

Labs

First two days of it; breakdown of folder structure and inner workings. Useful tips and tricks were the most helpful

I in particular enjoyed the lectures as they gave me a significant amount of information I can apply in my daily work

the labs

presentation

What part(s) of the course did you like least?

2 responses

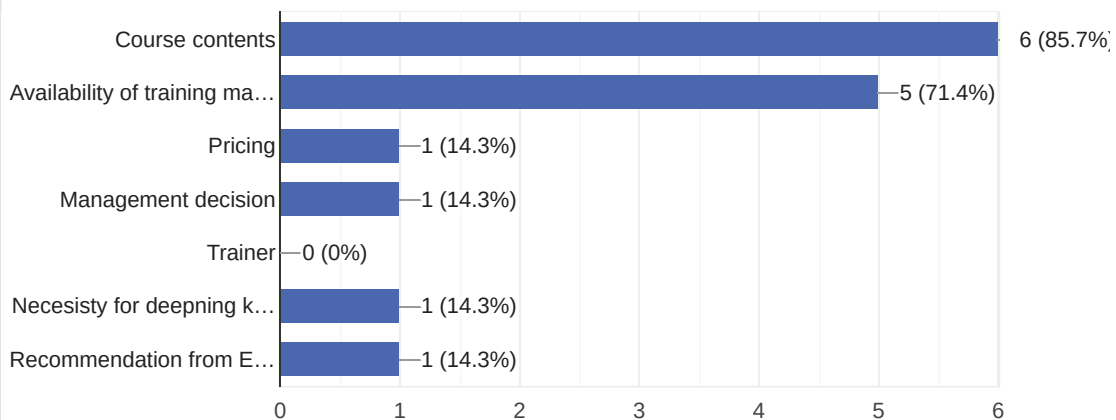

The practical labs, but that was down to issues on my end rather than Bootlin content

long build times

What reasons prompted you to choose a Bootlin course?
