Knowing what to search for is the most important part of learning about tooling. This solves that gap readily

How useful were the practical demos?

6 responses

Comments and suggestions

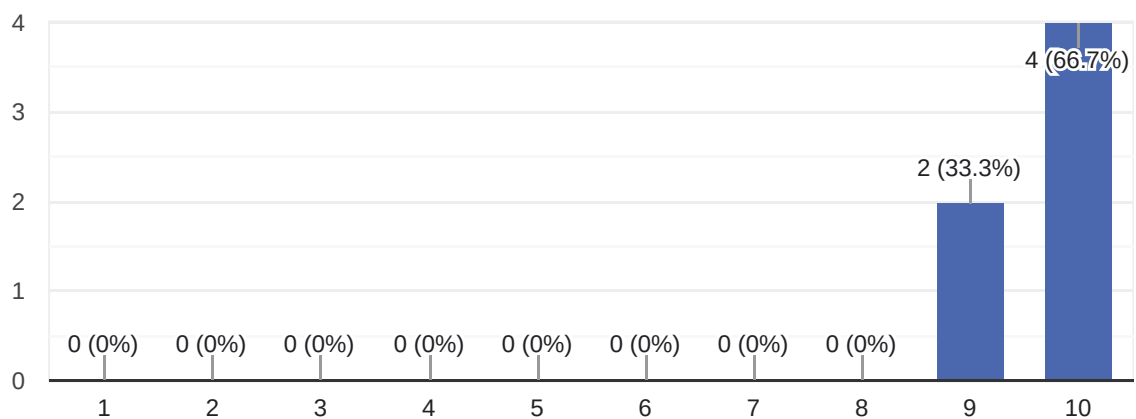

1 response

Most of the demo was a good way to show what the slides didn't manage to capture, but the mistakes and issues slow down the pace and are boring/hard to follow because of this sometimes.

How would you rate the overall organization of the course?

How would you rate the trainer?

6 responses

Comments and suggestions

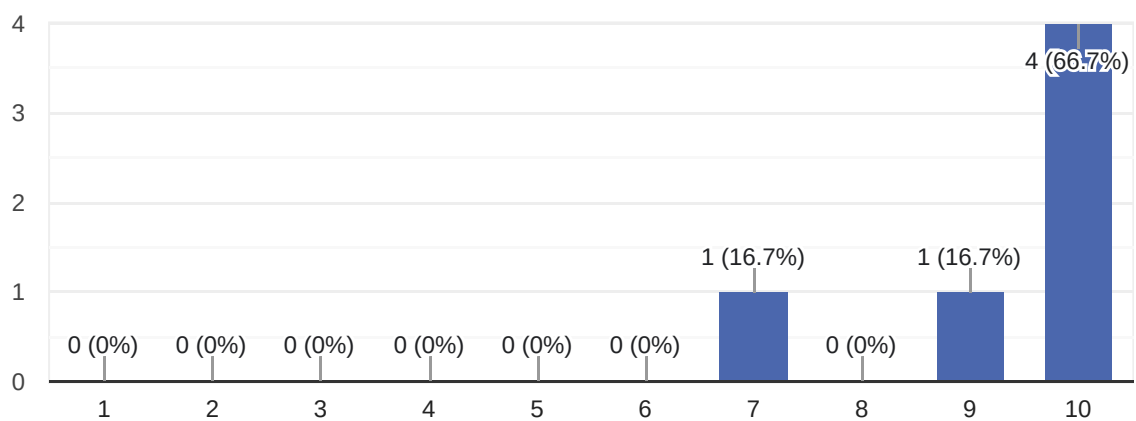

1 response

A few too many mistakes during demos slowed things down, but great technical knowledge and good engagement. Always able to answer questions readily.

How did the course meet your learning objectives?

This topics covered in the course need a lot more personal practice but labs were a good starting point.

La même formation en langue française serait top!

What part(s) of the course did you like most?

2 responses

The kernel part

the eBPF tooling with libbpf

What part(s) of the course did you like least?

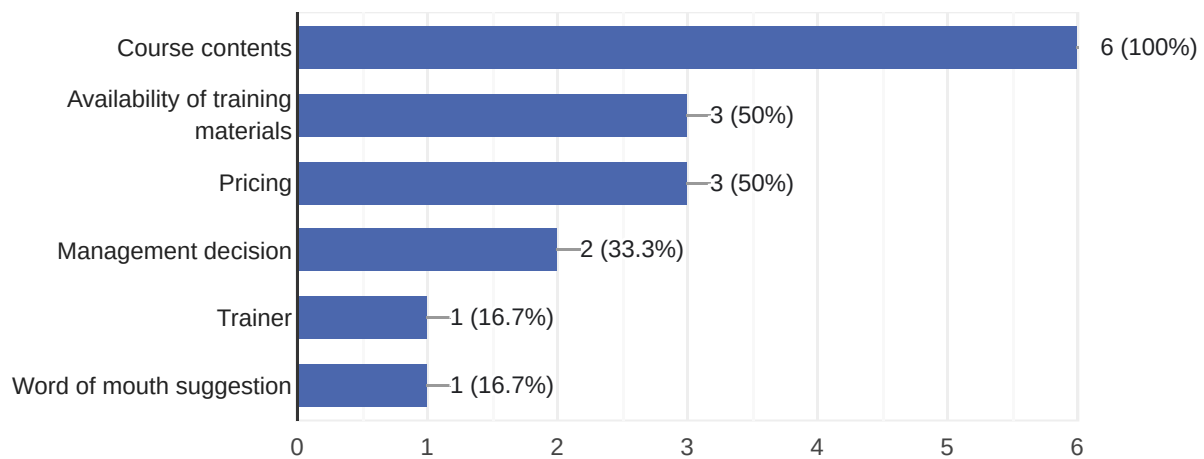

1 response

nothing!

What reasons prompted you to choose a Bootlin course?
