really dense, a lot of tools, so time is well spent.

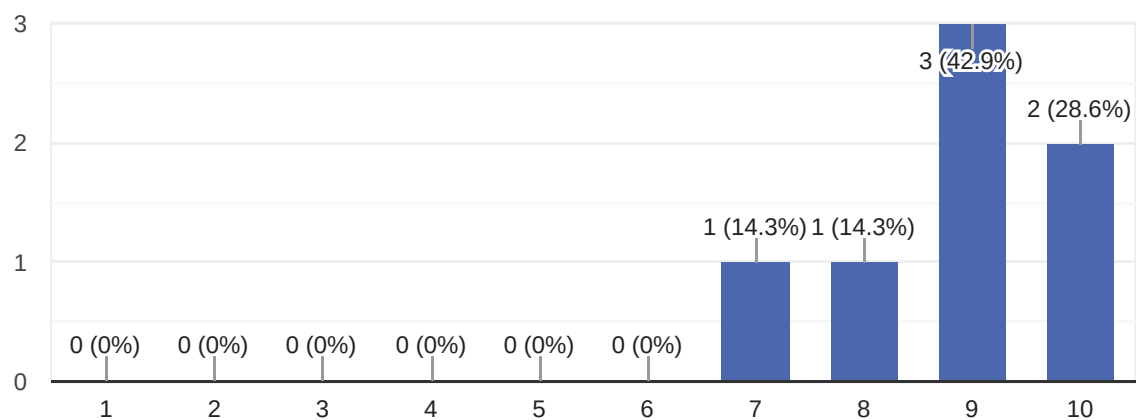

Excellent course, really enjoyed it

Would love a session going over device setup and helping students with their setup

How useful were the lectures?

Really like them. with the labs i will be able to dive in those tools I potentially can use in future

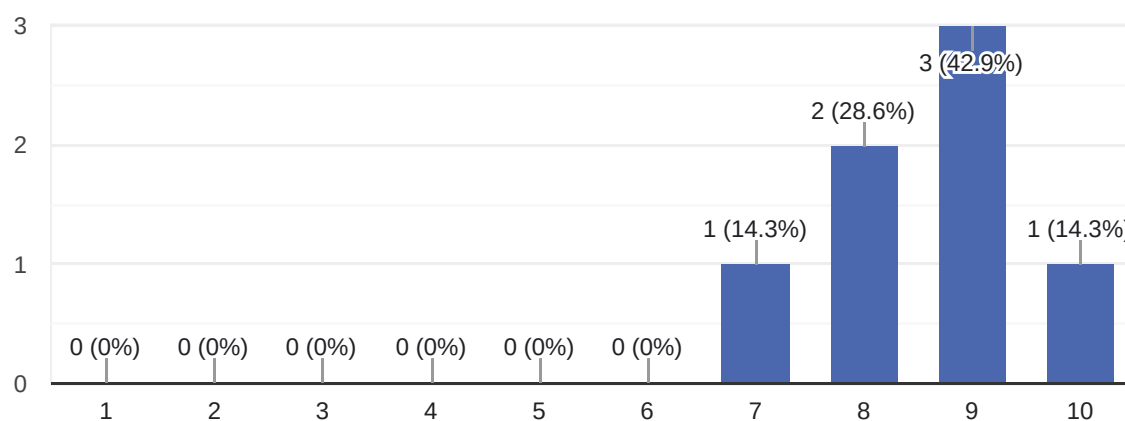

Maybe a little extra time allowing us to try out stuff.

I would have liked an onsite course so I get to do the practicals first

How would you rate the overall organization of the course?
