I found it a bit hard to follow sometimes, as I'm not familiar with French accent

The course was well prepared and packed with good content

There was a lot of copy-pasting commands from the lab PDF but not much explanation of what was actually going on. I will have to run through the labs myself later on and will probably learn more that way.

Maybe we should space these out with a day in between, or just keep the sessions under 3 hours so we don't burn out!

The course was well organized

it would be highly beneficial to have a dedicated sidebar or canvas where the instructor can sketch out ideas or mind maps in real-time via stylus (or digital pen).

## Further training needs?

1 response

Professional application development including architecture and design patterns
