Very friendly and skilled trainer. The training is dense but labs help put theoretical knowledge into practice.

How useful were the lectures?

They were useful to make sure we get the necessary theoretical knowledge.

La structure était bonne, avec les rappels nécessaires des bases au début de chaque partie avant de plonger vers le spécifique

How useful were the practical labs?

Comments and suggestions

2 responses

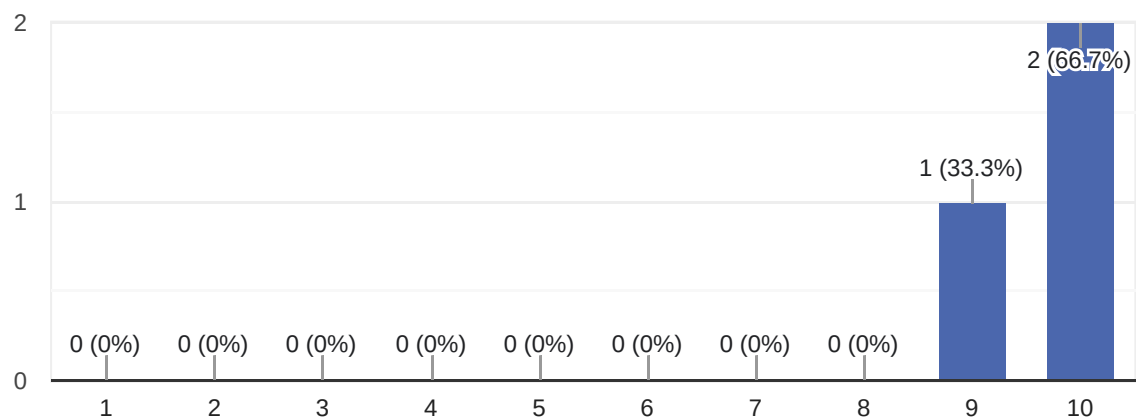

Very useful and necessary to get a hands-on feeling of what we learned in the lecture part.

Les TP permettent de donner les bases pour les adapter à nos besoins si nécessaire

How would you rate the overall organization of the course?

Bon équilibre entre la théorie et la pratique, et les questions et échanges spontanés ont permis de rendre la formation plus vivante

How would you rate the trainer?

Our trainer was very friendly, curious about what we were doing and was highly skilled. He has been a very good support throughout the training.

Le formateur était très compétent, et a su adapter le contenu lorsque cela était nécessaire, voire digresser pour ajouter des points d'intérêts particuliers.

How did the course meet your learning objectives?

Peut-être ajouter une réponse "Je ne sais pas" pour le questionnaire pré-formation, cela éviterait de devoir choisir une réponse au hasard lorsqu'on n'a aucune idée de quoi la question parle

What part(s) of the course did you like most?

3 responses

Implementing the blan driver.

The interactions and the labs

Toute la gestion des paquets par le noyau, j'ai appris beaucoup de choses

What part(s) of the course did you like least?

3 responses

The eBPF lab but mostly because of the unhelpful tooling.

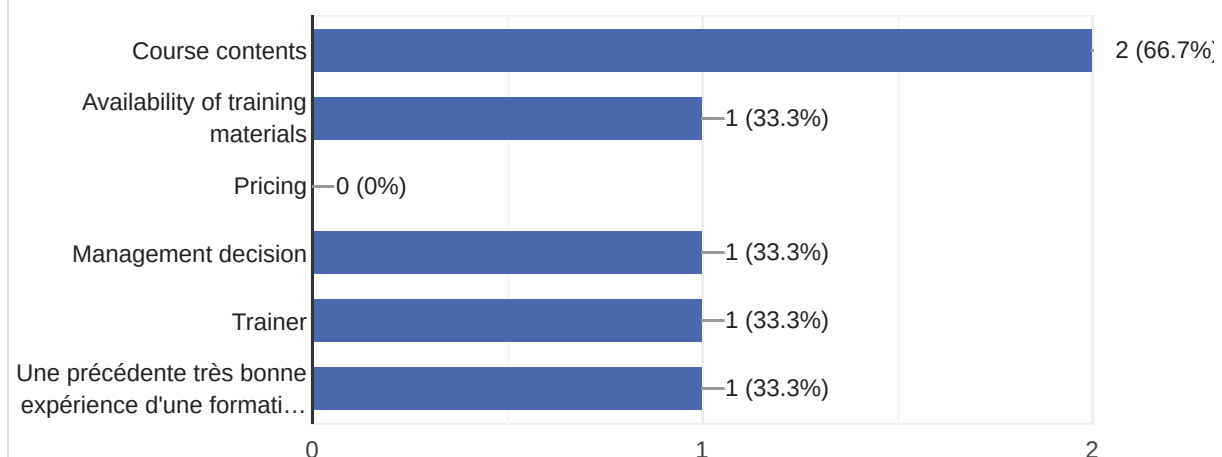

We could have had a lab regarding netlink and network tools

La partie sur les GMII et autres

What reasons prompted you to choose a Bootlin course?
